# Welcome to World Football Summit's Brand Manual

*These guidelines outline the main criteria for how to use our brand identity effectively, so that all brand contact points look and sound consistent.*

*This document will take us through the various sections that make up the visual universe of World Football Summit.*

# Basic Elements

Logo

*Our logo is at the heart of our brand. It is unique and captures the essence of World Football Summit, and should be used in all of our communications without altering its order or composition. The following criteria are a guide to how to use our logo most effectively.*

[Introduction](#)[Logo](#)[Responsive version](#)[Color](#)[Font](#)[Textual expression](#)[Visual](#)[Overview Arq.](#)[Global Events](#)[Track Events](#)[Services](#)[Awards](#)[The Club](#)[The Most Inclusive Match](#)

## Logo

Our logo is the most important element of the brand. It is based on the full brand name together with dynamic diagonal elements that bring recognition to the whole and at the same time convey a sporty character. These elements create a unique and differentiating logo.

The logo for the World Football Summit (WFS) is a bold, sans-serif typeface. The letters are a vibrant yellow color. The word 'WORLD' is on the top line, 'FOOTBALL' is on the middle line, and 'SUMMIT' is on the bottom line. Each word is separated by a thin white diagonal line that extends from the top-left of one word to the bottom-right of the next, creating a sense of motion and connection. The font is clean and modern, with a slight weight to it.

[Introduction](#)[Logo](#)[Responsive version](#)[Color](#)[Font](#)[Textual expression](#)[Visual](#)[Overview Arq.](#)[Global Events](#)[Track Events](#)[Services](#)[Awards](#)[The Club](#)[The Most Inclusive Match](#)

## Version

Our logo can be used in “Rebel Yellow” and “Serene Blue”. Using elements within the communications deck, the version of the logo to be used can be determined, with the objective of achieving maximum contrast and legibility. If the background is dark, we should use the logo in “Rebel Yellow”. If the background is light, we will apply the logo in “Serene Blue”.

*Correct spelling*

**At WFS we have always gone beyond, looking for new horizons that make our sector evolve.**

*Today, more than ever, it is clear to us that the soccer industry as we know it must move towards a modern and progressive industry. as we know it must move towards a modern and progressive industry. More inclusive and fairer for all of us who are part of it. In short, at **Word Football Summit** we open the way to the soccer we want; the one we need. we want; the one we need.*

**Correct & incorrect uses**

When the trademark is written, it should be done as shown in the example; WFS and World Football Summit.

We will not write “World Football Summit” as shown in the examples of incorrect spelling.

*Incorrect Spelling*

wfs

Wfs

world football summit

WORLD FOOTBALL SUMMIT

World football summit

# Visual System

*WFS adapts its visual style to effectively engage its audience.*

*The style is versatile, which means that we can adapt the brand identity manual to different scenarios where it will be involved and cover all the needs of World Football Summit.*

*The brand identity manual should always be followed when creating any type of material.*

# Key visual

# The Net

[Introduction](#)[Logo](#)[Responsive version](#)[Color](#)[Font](#)[Textual expression](#)[Visual](#)[Overview Arq.](#)[Global Events](#)[Track Events](#)[Services](#)[Awards](#)[The Club](#)[The Most Inclusive Match](#)

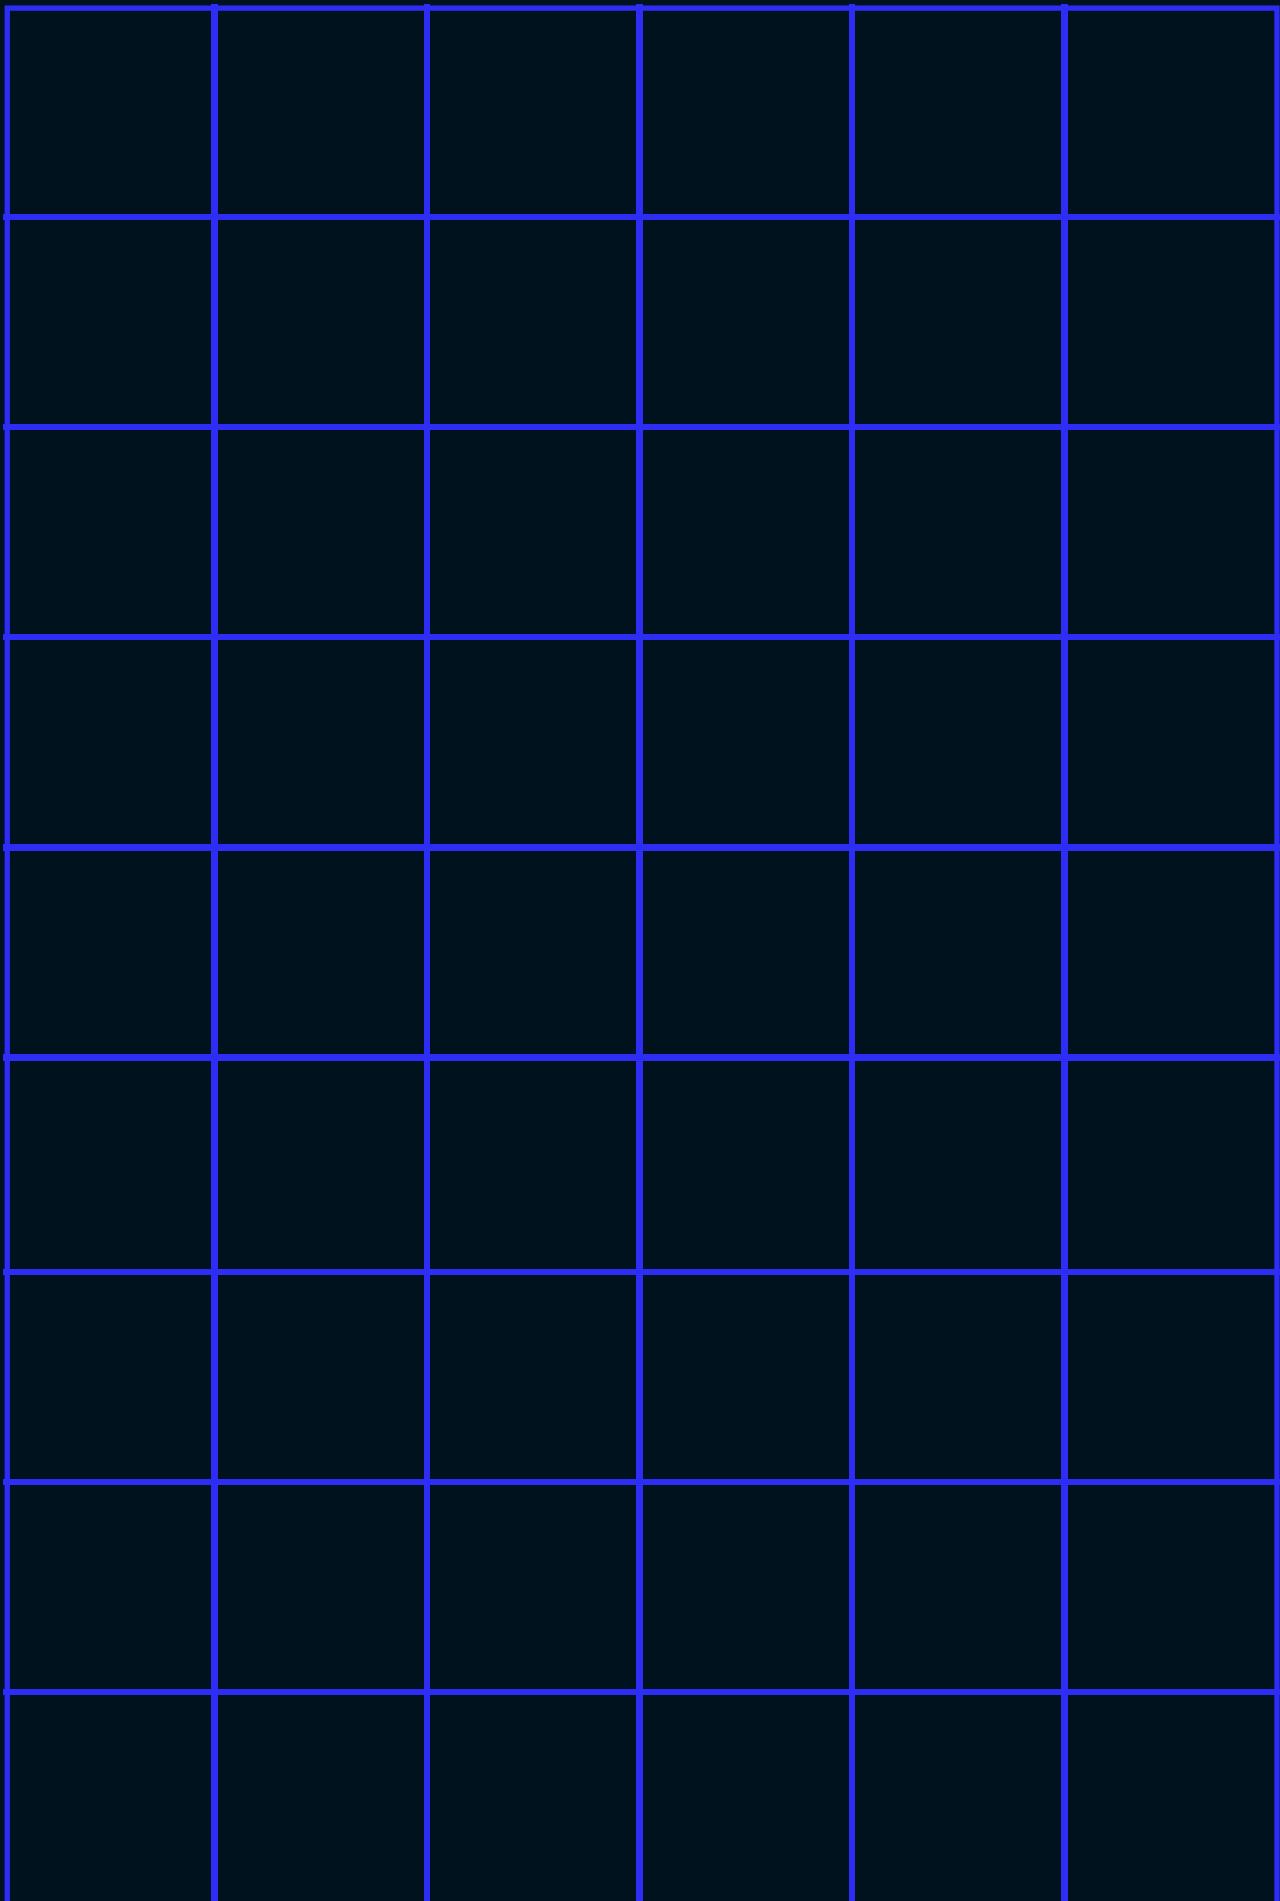

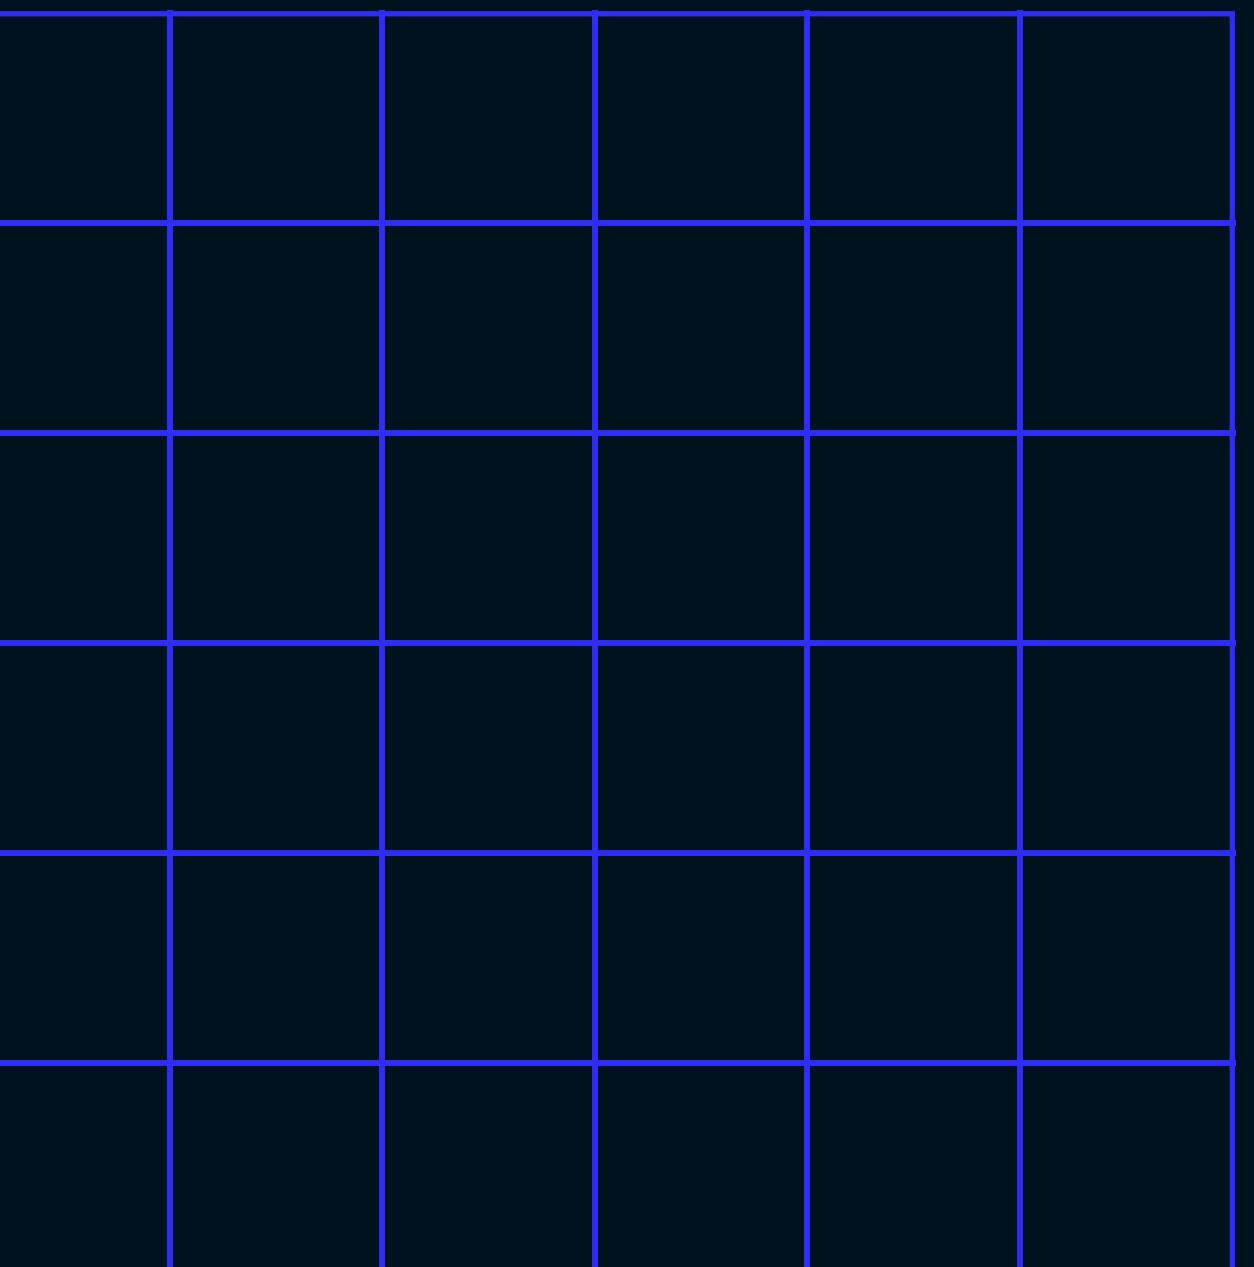

# The Net

*It is the conceptual name for the visual key of WFS. It refers to the networking and connections that occur within WFS, as well as being a metaphor for the goal net.*

## Build

“The Net” is built on a 1x1 grid, which can be adapted according to the format or size of the piece. The net must always be applied in “Rebel Blue” to create an iconic element of the brand and make this gesture a symbol. To determine the stroke of the net we will always start from a size of 1080x1080 px where the stroke will always be 2.5pt. Taking this as a basis, we will try to adjust to the proportion of the same thickness. Always under the designer’s criteria.

## Ways of use

The net can be applied in a number of different ways to provide both dynamism and opportunities for use. There are three versions; the “Relax” version which is always applied with a margin, the “Expanded” version where there are no margins and the “UltraExpanded” version where a part of the network is zoomed in.

*Relax - Version with margins*

*Expanded - Margin-less version*

*Ultra Expanded - Margin-less version*

# Layouts

## Layouts

To build the grid we will take into account three aspects: margins, columns and gutter. We start by obtaining the proportion of the narrowest width of the piece. For example: in a vertical part the narrowest width would be the horizontal part. To obtain the margin, 5% of the surface is calculated, this can be done with the Illustrator Scale tool.

**NOTE:** This standard covers 90% of the possible applications, in some cases and always under the supervision of the branding department, its size can be modified to adapt it to specific situations.

1080x1080px

- Margins: 5% of width.
- Columns: 4 columns.
- Gutter: Same as margin.

1920x1080px

- Margins: 5% on the narrowest side.

# At WFS we have always gone beyond, looking for new horizons that will make our sector evolve.

*Brand platform*

Today, more than ever, it is clear to us that the soccer industry as we know it must move towards a modern and progressive industry. More inclusive and fairer for all of us who are part of it. In short, at World Football Summit, we open the way towards

*the football we want, the football we need.*

*Headings*

*Subheading, or  
complementary  
information*

*Following text*

*Highlights*

## Hierarchy

Each of the font styles is intended for different aspects of the brand, and although there may be exceptions, as a general rule these areas of use should be followed.

To be noted:

**1. Hierarchizing information:**

The use of the different bodies may also respond to functional criteria when ordering the text.

Headlines: Manuka Medium

Text followed: PT Serif Regular

Highlights: PT Serif Regular Italic

**2. Ensure legibility:**

In very small body sizes, good readability must be ensured with the right thickness. For example, a body that is too thin on brighter colors can make reading difficult.

WFS

## The role of screens in stadiums to increase fan engagement.

05.10.2022

In Interviews,  
WFS Europe

We live in an era where the amount of sports content available is not only vast, but it is also immediate. Within palm's reach, any fan around the world with a mobile phone can tune into a live game, match highlights, videogames, or documentaries, just to name a few.

And given all of this can be done from one's own home, football clubs find themselves having a hard time attracting fans into the stadium, which puts further stress on their ticketing revenue figures.

How can they increase fan engagement through the action of the live match?

Other than the game itself, the screens at the stadiums reveal themselves as a key element to make the experience of attending a game unique. For this reason, we were looking forward to having this conversation with the team at Yellowbricks Comunicación, a business that focuses

# Photography

## People

We seek closer and more evocative moments that are able to transmit and move our audiences. Gestures, smiles, admiration, empowerment, a look, elegance. These are some of the traits that should appear in communication images. Closer shots give us more intimacy and warmth, it is good to use this resource when communicating.

**NOTE:** The personality and character of the people will be adapted to each continent; gestures, laughter, formality, etc. Gathering the essence of the country to create pride of belonging and respect its culture.

## Cities

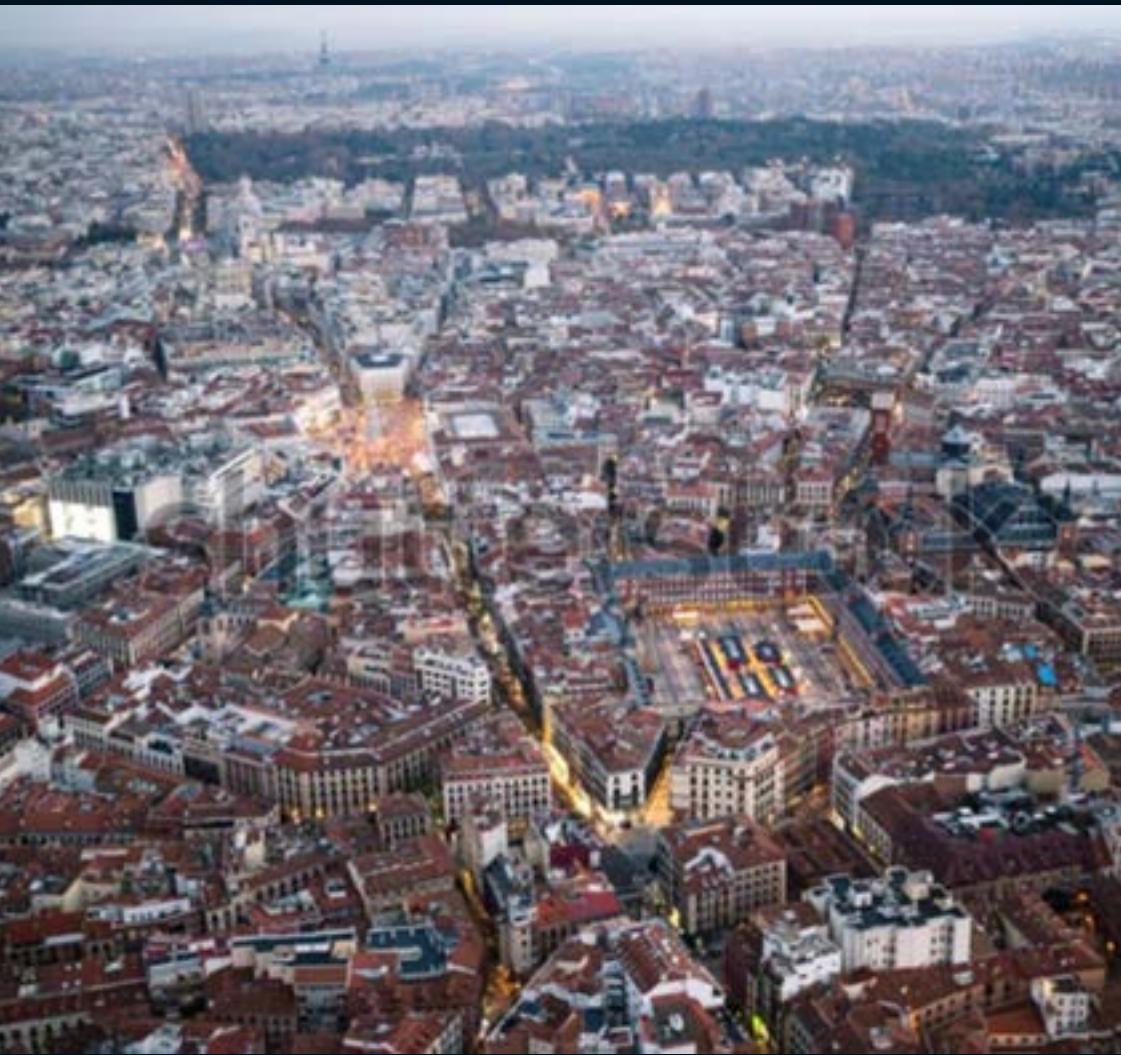

Images have to represent the essence of the cities, creating recognition and pride of belonging, which can be through its architecture or environment, we seek to highlight the character of the city. It is advisable that the images have nuances or variety of lighting; the use of night photography can help to generate those brightnesses and contrasts that will help to create a visually more attractive monotone. The night also helps us to transmit spectacle, magic, romanticism...

*Correct writing*

**At WFS Europe we have always gone beyond, looking for new horizons that make our sector evolve.**

**Correct & incorrects uses**

When the trademark is written, it should be done as shown in the example; WFS EUROPE and World Football Summit EUROPE. We will not write "World Football Summit EUROPE"

*Today, more than ever, it is clear to us that the soccer industry as we know it must move towards a modern and progressive industry. as we know it must move towards a modern and progressive industry. More inclusive and fairer for all of us who are part of it. In short, at Word Football Summit Europe we open the way to the soccer we want; the one we need. we want; the one we need.*

*Incorrect writing*

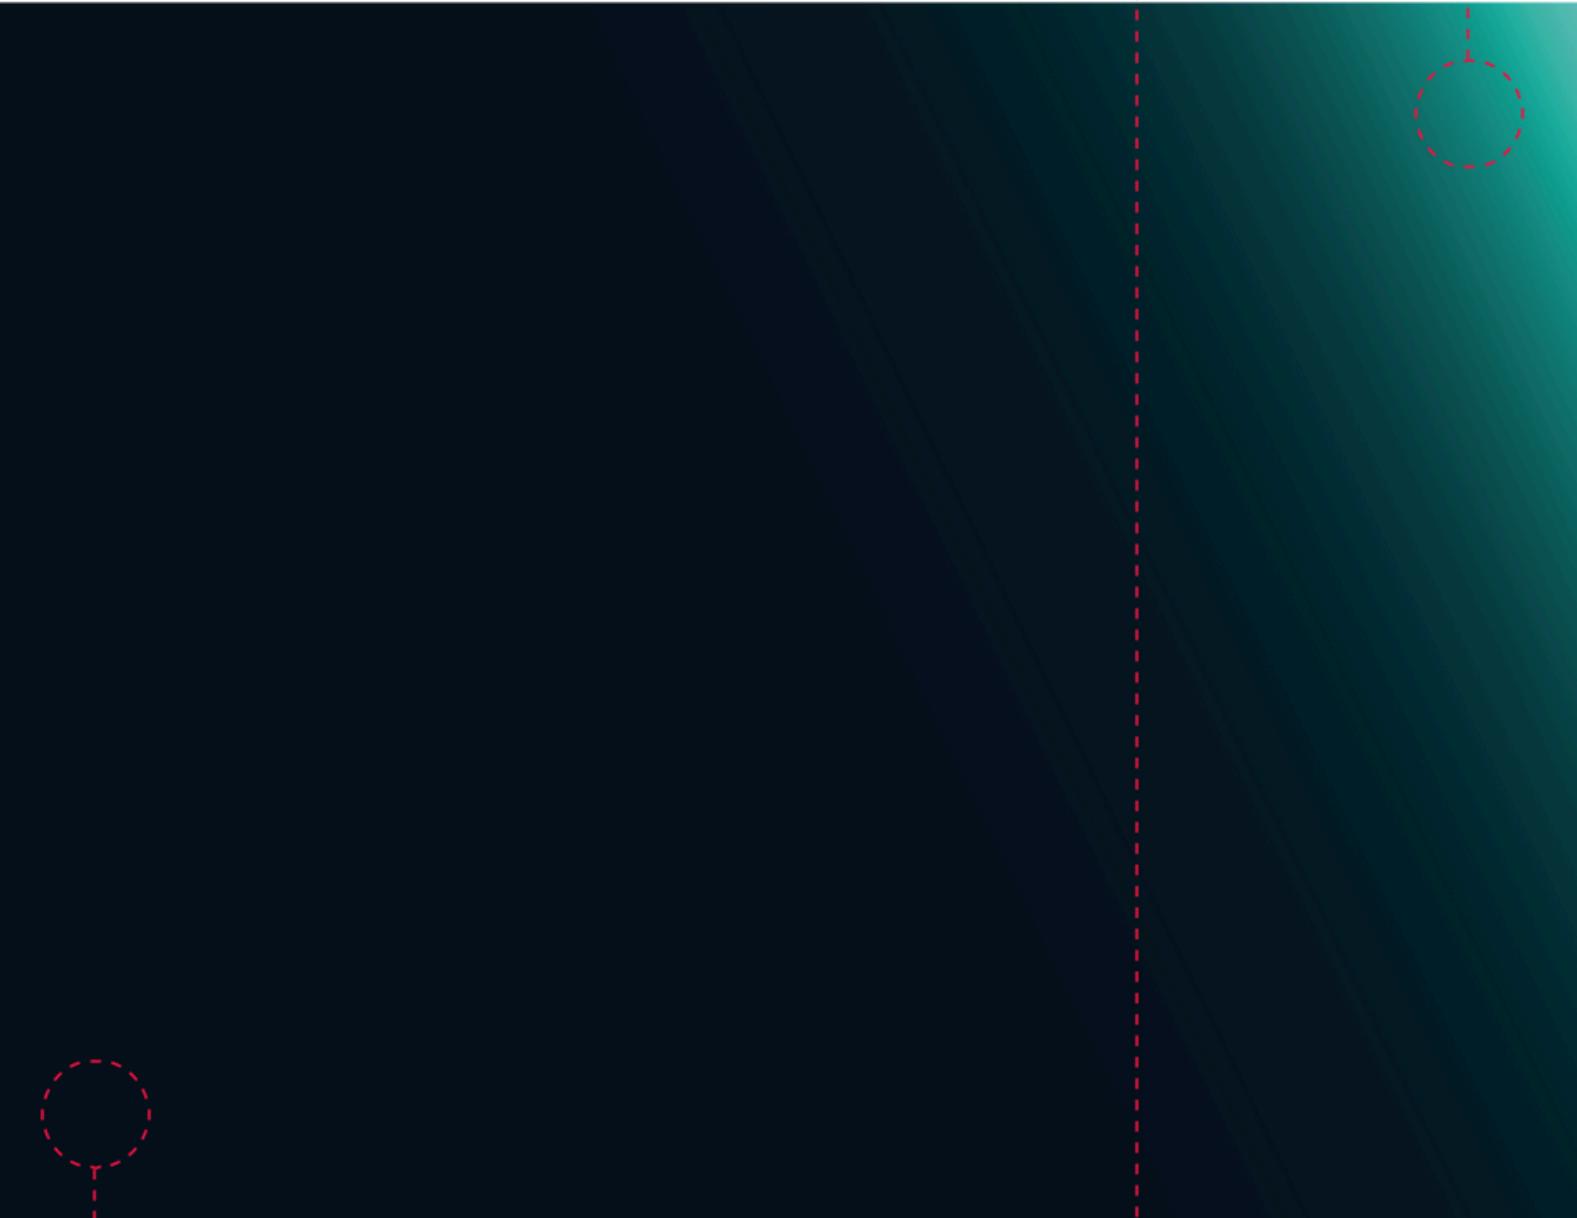

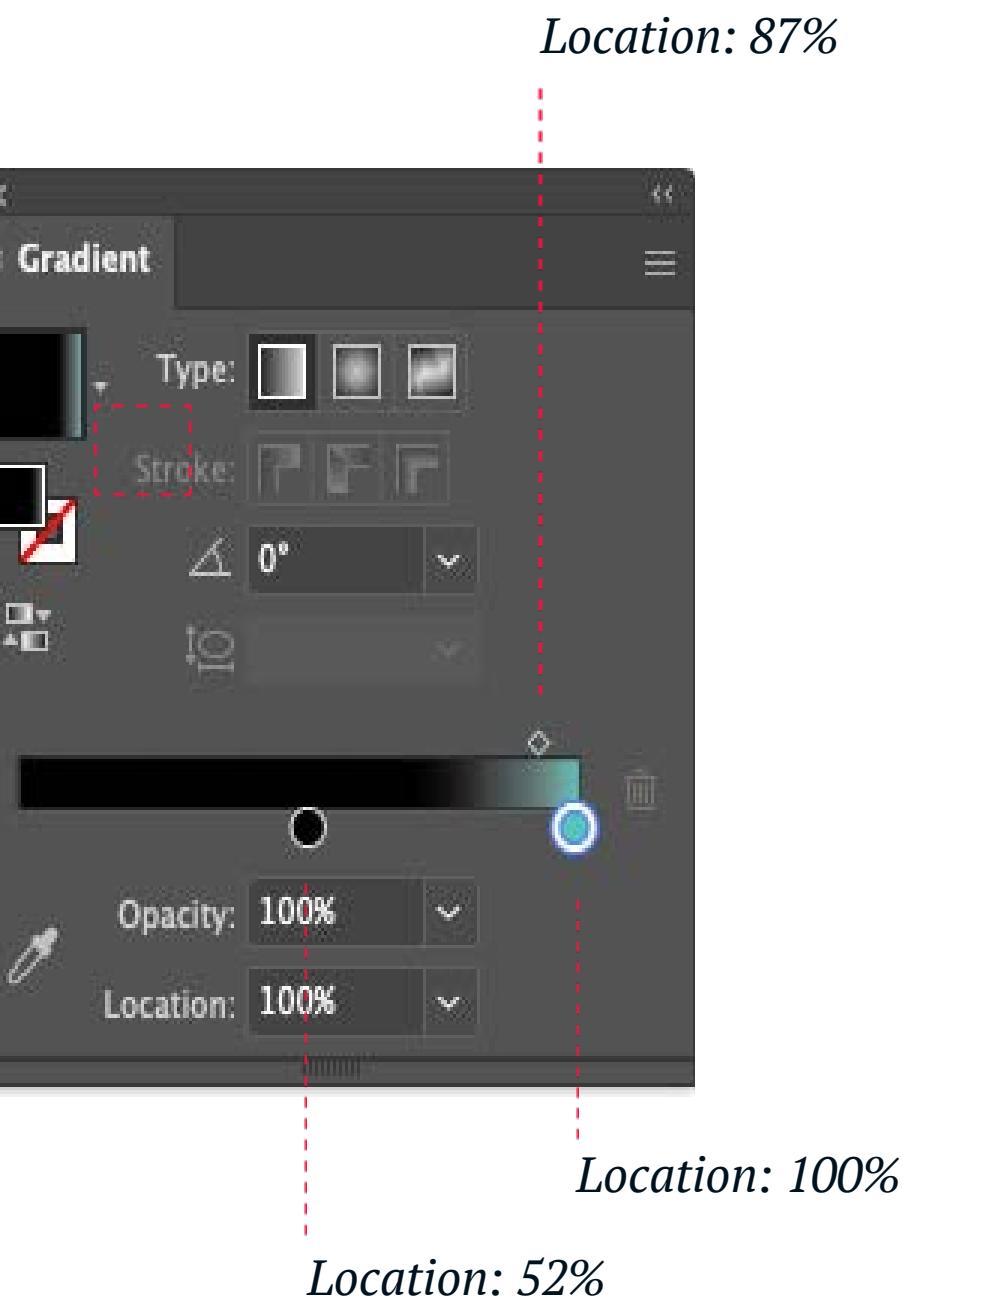

wfse    Wfse    world football summit europe    World Football Summit EUROPE  
WORLD FOOTBALL SUMMIT EUROPE    World football summit europe

## Key visuals Global events

To build the backgrounds of the different events and to have a unique criteria we will always follow the rules of use shown in this page. **NOTE:** These rules are intended for external communication pieces at the event. Once inside the event there is the possibility to use the color of the event in a more protagonist way.

*We always use **Serene Blue** as a transversal color to all events.*

*The gradient color  
It will depend on the  
continent.*

**NOTE:**  
The degraded never  
will exceed 25% of the  
total surface area of the piece.

## Key visuals Global events

Each continent is assigned a color to create differentiation between them. The color position is always in the same corner. Color is an important gesture to differentiate each Event, but it is important to remember that it is a priority to preserve and prioritize the elements of the main brand.

# Track Events

# Track events logos

## Track events logos

This is the build of the logo for the different “Track Events”. To create synergies and recognition, the name of the event is always accompanied by the endorsement “Powered by WFS”. Unlike the WFS logo, the “Track Events” logos are always applied in white with the descriptor in Rebel Yellow.

**NOTE:** These usage rules apply to all versions of the different logos.

**WOMEN'S  
FOOTBALL  
SUMMIT  
- BILBAO -**

## Examples of Track events logo builds

This page shows examples of how the different “Track events” logos should be constructed.

**NOTE:** The same proportions and hierarchies will be used to build new Track events.

**WOMEN'S

## The Club logo

The Club has its own logo, which seeks to convey a more premium and differentiated perception. The objective is to make you feel part of something more exclusive and special.

**NOTE:** The Club will always be applied in the same way: Serene Blue background with the logo and “The Net” in Gold Club.

The logo consists of the text "WORLD FOOTBALL SUMMIT" in a large, bold, gold sans-serif font. The letters are arranged in three lines: "WORLD" on the first line, "FOOTBALL" on the second, and "SUMMIT" on the third. The logo is flanked by two thin, gold diagonal lines that extend from the top and bottom edges of the text area, creating a frame-like effect. Below the main title, the word "THE CLUB" is written in a smaller, gold, all-caps, sans-serif font.
